# TARGET SOLUTIONS.

GENERATE GROWTH THROUGH STRATEGIC SOLUTIONS AND KEEN OBJECTIVES.

We are committed to providing professional IT services that directly improve your company's bottom line.

## ABOUT YOUR COMPANY

With our managed IT services, you'll enjoy the benefit of a full team of IT specialists keeping your systems in excellent working order. For a small, fixed monthly fee, we monitor your systems 24/7, apply patches, ensure backups, keep viruses at bay, and perform a host of other proactive measures.

## WHAT'S INCLUDED

Each extension is packed with useful calling features such as music on hold, voicemail to email, inbound call managers, desktop controls and a direct inward dial number and an online web portal to manage the service from any where in the world.

Generating growth for clients in the fastest and most cost effective manner requires strategic planning and keen slnce of evolving digital markets.

Extensions include voicemail with email notifications, custom greetings, call managers, IM and phone controls.

Desktop applications that let you make calls, manage incoming call features and retrieve voicemails.

Our apps also provide instant messaging to other people in your business who are using the same service.

Mobile apps that allow you to sync your desk phone to mobile devices running iOS and Android.

Our basic service has amazing call features but our premium products provide additional capabilities to our standard offering with features such as unified fax messaging, robust auto attendants, on hold messaging, automated call distribution with customizable ring groups and more.

## PREMIUM DESK PHONES

With the perfect blend of performance, efficiency and exclusivity, our voice solutions reflect an unwavering commitment to transcending the idea of what a technology company is. Innovation and knowledge are our contributions to creating a premium service for our clients based solely upon keeping your business connected.

## UPGRADES & CHANGES

This could be the last phone system you will ever buy. Feature upgrades are done automatically over the internet with no action required by you. Best of all, any moves, adds or changes can be handled by us in a matter of minutes.

## ADD AS YOU GROW

There's no bulky equipment to install, maintain, or occupy space at your business so adding and removing phones is as easy as plugging in or disconnecting the phones you don't need. Our service can easily accommodate 2 to 300 extensions.

## DISASTER PREPAREDNESS

Our service will automatically handle calls and messages during power outages. In case of a disaster, employees can use our mobile app to answer and make calls or forward calls to another location or their mobile phones using the online web portal.

We implement smart integrated IT management in an evolving digital world.
